

LOST SOUL OF CRIPPLE CREEK CREW MEMBERS

Mel Moser
Director for
The Lost Soul of Cripple Creek

Mel Moser is glad to be involved with the Fall show once again. Just coming

off the summer season, he enjoys the Fall season in general, and putting up a show during this time of the year is a lot of fun for him. He wishes to thank you the audience for making this one of the most successful shows of the season and with your support will continue to thrive in the years to come. He wants to thank his buddies Mickey Burdick and Chris Armbrister and his oldest brother Larry, for the times he was "asked" to take his little brother out trick-or-treating and never letting on how much of a pain in the butt it must have been to do so, thanks big brother!

Terry Smith

Now into his second year of running sound and lighting cues for live performances, Terry brings a wide variety of stage and production experience to the position. Credits include singer/musician performances on major stages and national TV, recording artist, booking and stage-producing national concert acts for Cripple Creek venues, studio producer and engineer, writer-director of countless TV/radio commercials, jingles and more. The Butte shows are a terrific asset to this community and I'm very proud to be a contributing part of it.
